PROFESSIONAL SUMMARY

Software Engineer with nearly 2 years of experience building fintech and finance apps in Flutter and Dart, published on Google Play, and responsive web applications in Angular and TypeScript. Strong in Bloc/Cubit and Clean Architecture, REST API integration, secure token-based authentication, Firebase and reusable UI components. Working knowledge of React (Hooks, Context API, Redux Toolkit) and Python for data structures and algorithms. Experienced with Git, debugging and Agile collaboration with backend, QA and product teams.

TECHNICAL SKILLS

Mobile : Flutter, Dart, Bloc, Cubit, Provider, Clean Architecture, SOLID, MVVM, MVC, Push Notifications (FCM), Google Maps / Location Services, Performance Optimization
Web : React (Hooks, Context API, Redux Toolkit), Angular (Components, Services, Routing, Forms, RxJS), TypeScript, JavaScript, HTML5, CSS3, Responsive Design, Cross-Browser Compatibility
APIs & Integration : REST APIs, JSON, Postman, Firebase, Google APIs, Third-Party SDKs
Auth & Security : Token-Based Auth (Access & Refresh Tokens), Role-Based Access, Firebase Auth, OTP, Flutter Secure Storage, Data Encryption
Also Familiar With : Python (data structures, algorithms and problem solving)
Database & Data : Cloud Firestore, SQLite, MySQL, MongoDB
Testing & Tools : Unit Testing, Widget Testing, Debugging, CI/CD Pipelines, Git, GitHub, GitLab, VS Code, Android Studio

EXPERIENCE

Software Engineer Jul 2026 – Present
Nagarro Software Private Limited Mumbai, India
- Completed company-led technical upskilling in React and AI fundamentals; practised React basics, Hooks, Context API and Redux Toolkit, with REST API basics and regular DSA practice in Python.

Software Engineer (Flutter & Angular Developer) Jan 2025 – Jun 2026
Tekenlight Solutions Pvt Ltd. Bengaluru, India
- Developed and shipped fintech mobile apps in Flutter and Dart using Bloc/Cubit and Clean Architecture; applied SOLID principles for maintainable, testable code.
- Owned the Flutter authentication layer: token-based login with refresh-token handling and session management via Flutter Secure Storage, plus centralized API error handling and in-app notifications; optimized widget rebuilds and rendering performance.
- Developed responsive Angular web applications in TypeScript, HTML5 and CSS3, using components, services, directives, pipes, routing, forms and RxJS; built reusable, scalable UI components with cross-browser compatibility.
- Integrated front-end apps with RESTful APIs and JSON-based services and third-party SDKs; implemented authentication and role-based access; debugged and resolved issues and performance bottlenecks while working with backend, QA and product teams in Agile.

Senior Verification Executive Jun 2023 – Apr 2024
Teleperformance Mumbai, India
- Handled employment and education verifications within strict turnaround times, investigating discrepancies while maintaining accuracy.

PROJECTS

Omni Financial – Fintech & Mobile Banking App (Flutter) Jan 2025 – Jun 2026
- Developed mobile banking features with OTP-based sign-in and secure session handling; integrated Firebase Authentication and Google APIs with REST-backed services.
- Live on Google Play: play.google.com/store/apps/details?id=com.omnifinancial.pub

CashRepublic – CSR Web Portal (Angular, TypeScript, RxJS) Jan 2025 – Jun 2026
- Developed portal features using Angular and TypeScript, with reusable components, services, directives, pipes, reactive forms, routing and RxJS.
- Implemented authentication, role-based access and a responsive, cross-browser compatible UI backed by REST API integrations; collaborated with backend, QA and product teams in an Agile environment using Git.

Kharcha Sutra – Personal Finance & Expense Tracker (Flutter, Solo Developer) Jan 2026 – May 2026
- Built income and expense tracking with categorization, charts and spending analytics using Bloc/Cubit and Clean Architecture, Firebase Authentication and Cloud Firestore; owned the full lifecycle through Google Play release.
- Live on Google Play: play.google.com/store/apps/details?id=com.kharchasutra.app

EDUCATION AND CERTIFICATIONS

Thakur College of Engineering & Technology, Mumbai University Aug 2018 – Apr 2022
Bachelor of Engineering (Mechanical) | CGPA: 8.35 Mumbai, India

Masai School Jun 2024 – Dec 2024
Full Stack Web Development Bengaluru, India
- Trained in HTML, CSS, JavaScript, React (Hooks, Context API, Redux Toolkit), databases, DSA and software engineering; built responsive web applications and collaborated on team projects using Agile and Git.
